RAMPA MOBILA PYR-TW

PYR-TW

TECHNICAL INFORMATION

Mobile Ramps - PYR TW

Tail-less Large Wheel Mobile Loading Ramp

RAMP TYPE: Mobile

DISTINCTIVE FEATURES: This model, which has no tail, is 11.50m long. The reduced slope makes it easier for forkli s to ascend. Thanks to the minimal hydraulic equipment, the failure and maintenance rates are very low. The ramp does not exert pressure on the loaded vehicle due to the front trailer jack leg. The large wheels provide be er trac on on uneven surfaces.

USAGE AREA: Outdoor / Indoor Area-Field

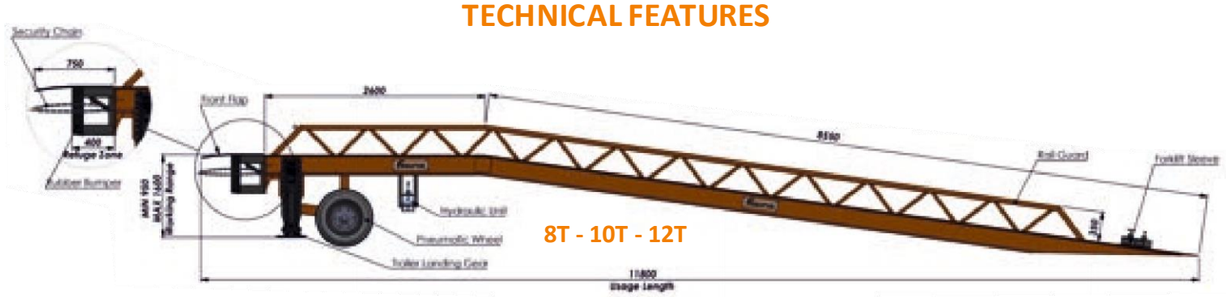

RAMP FLOOR: Full pressure twisted notched grid

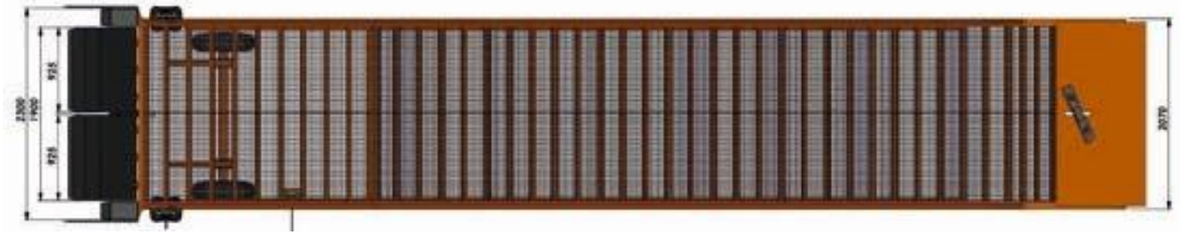

WHEEL TYPE: Pneuma c Wheel / Solid Wheel

CAPACITY: 6 / 8 /10 / 12 / 15 / 20 / 25 TON

MANEUVER TYPE: Forkli connec on direc on is movable. Fixed direc on (forward-backward) uses pneuma c wheels. Steering is done from the rear. Maneuvering is possible in large areas.
